CATEGORY AND PRICE CHANGE

FOR AMAZON PROMO CLIENT PROVIDERS

The categories requested for your author start with "Kindle Store > Kindle eBooks" and are unique to Amazon. They do not therefore exactly match BISAC codes, but we have to adapt the book categories on Amazon to provide optimal exposure for the book.

To meet your BISAC requirements:

      1.Match the first, broader part of the category given, e.g. Kindle Store > Kindle eBooks >Mystery, Thrillers, Suspense > Thrillers to the closest BISAC code category

      2. Use the rest of the category given as **keywords** in the Amazon KDP admin Keywords box. E.g. **Small Town, Murder**

      This will map the book to the category as given, e.g. Kindle Store > Kindle eBooks >Mystery, Thrillers, Suspense > Thrillers>Small Town>Murder

The price for this book must be $2.99 or under during our promotions.
